

Complex Discussions in End of Life Care

Course Duration Four half days - 1.30 - 4.30pm

Course Cost £200 per person to include:
All course materials and refreshments
Funded Places available to Applicants from Rowans Hospice and Solent NHS Trust

Target Audience Doctors, Allied Healthcare Professionals, Social Workers and Nurses and those working at a senior role in Nursing Homes.

Course Aims To provide an opportunity to explore the puzzles you will have experienced in your clinical work and develop new strategies for addressing these challenges.
Please note Course Requirement: Having some form of difficult or complex conversations in end of life care within job role is essential.

Course Information

- This is an experiential communications course that will support practitioners to communicate effectively with patients, family members, carers and the bereaved on complex issues relating to end of life care, death, dying and bereavement
- To provide emotional support to patients, carers and the bereaved and identify when a person requires referral to a specialist service – Level 2 of the NICE Model of Psychological Assessment and Intervention
- Participants will record their learning through completing a course workbook, which will demonstrate how they achieved stated outcomes.

Course Benefits

- Your learning will be facilitated through the delivery of a modular programme, which will require participants to take skills learnt in each session and put these into practice between sessions.
- There will be opportunities to reflect on your experiences of trying new communication strategies at each training session.
