

Discussions and Decision Making for uDNACPR

Course Duration One day

Course Cost £80 per person to include:
All course materials, refreshments and a light lunch
Funded Places Available to Applicants from Rowans Hospice, Southern or Solent NHS Trusts

Target Audience For Senior Nurses, Doctors, and Midwives who in their role would be having these conversations

Course Aims To increase confidence and competence in making and communicating these decisions with patients and/or relatives.

Course Information

This course is designed to increase confidence and competence in making and communicating these decisions with patients and/or relatives. The day will explore the role of the Clinician completing the form, how the Mental Capacity Act 2005 affects DNACPR decisions, there will be demonstration of discussions and discussion practice.

Course Benefits

- Skilled communication given in a timely manner to patients and carers ensures less inappropriate resuscitation attempts.
- Facilitates more natural and dignified deaths.
- Avoids repeated and sometimes distressing discussions if Senior Nurses can complete the process.
- Skilled advance care planning leads to greater user satisfaction and less complaints
- Increased job satisfaction
- Potential to influence improved bereavement outcomes

Discussions and Decision Making for Unified Do Not Attempt Cardio Pulmonary Resuscitation (uDNACPR)

Before you apply for this course

If you are interested in attending this course:

- Please ensure you have your Managers approval and then contact the Specialist Palliative Care Community CNS team within either Solent NHS Trust or Southern Health Foundation Trust.
- Senior Nurses will need to complete a competency framework issued by the CNS from the SPCT's. The Senior Nurse's Manager (or appropriate person) will need to sign off their competencies before attending the study day. This will incorporate practice discussions before undertaking this extended role.
